IEP Implementation and Progress Monitoring: Administrative Considerations is one of the many progress in the general curriculum statewide network resources that are available free to anyone with an interest in helping students with disabilities succeed.

The IEP Implementation and Progress Monitoring resource is a list of topics that administrators should consider when absorbing the implementation of a student's IEP, and reviewing how the student's progress toward annual goals are being monitored. This resource includes areas of consideration, such as IEP development, implementation, and monitoring. Each section also includes the related state and federal laws.

The last section of this resource includes additional situations in which an ARD must be held. General considerations are listed for when a student is not making progress, does not pass the state assessment, and is at risk of not graduating within four years.

I hope you take the time to read through this resource, and to also share it with colleagues. This document, and many others can be accessed at www.TexasPGC.net.
